MIX® 2.0 - UPDATE PROCEDURE

1. INSTALLING THE DRIVERS

- Uncompress the MIX Update Software (preferably on your desktop).
- Open the folder.
- Launch **Ict_installer_1.exe** to install the drivers.

Name		Status	Date modified
DFUSec.exe		⟳	18/12/2017 17:45
DFUUTIL.ini		⟳	20/08/2019 15:25
iram_dfu_util_any.bin.hdr		⟳	18/12/2017 17:45
Ict_installer_1.exe		⟳	09/03/2018 13:54
Mix-Update-Procedure-01.pptx		⟳	20/08/2019 16:21

- Follow the procedure. Untick all boxes when the installation is finished. The software should close.

Completing the LPC-Link 2 Configuration Tool Setup Wizard

Click the "Finish" button to exit the Setup Wizard.

untick

☐ View readme file

☐ Launch LPC-Link 2 Configuration Tool

2. LAUNCHING AND CONFIGURING
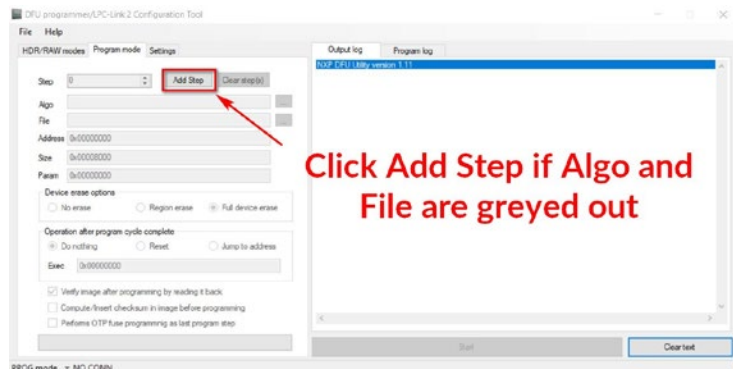

- Go back to the folder and launch **DFUSec.exe**:

DFUSec.exe		✓	18/12/2017 17:45
DFUUTIL.ini		⟳	20/08/2019 16:48
iram_dfu_util_any.bin.hdr		✓	18/12/2017 17:45
Ict_installer_1.exe		✓	09/03/2018 13:54
Mix-Update-Procedure-01.pptx		⟳	20/08/2019 16:47

- Go to File and untick **Lock LINK2 function**:

# MIX - **UPDATE PROCEDURE**

## 2. LAUNCHING AND CONFIGURING (CONTINUED)

- You will arrive at the windows below. If Algo and File are greyed out, please add a step by clicking **Add Step**. If they are not greyed out, go to the next page of this procedure.

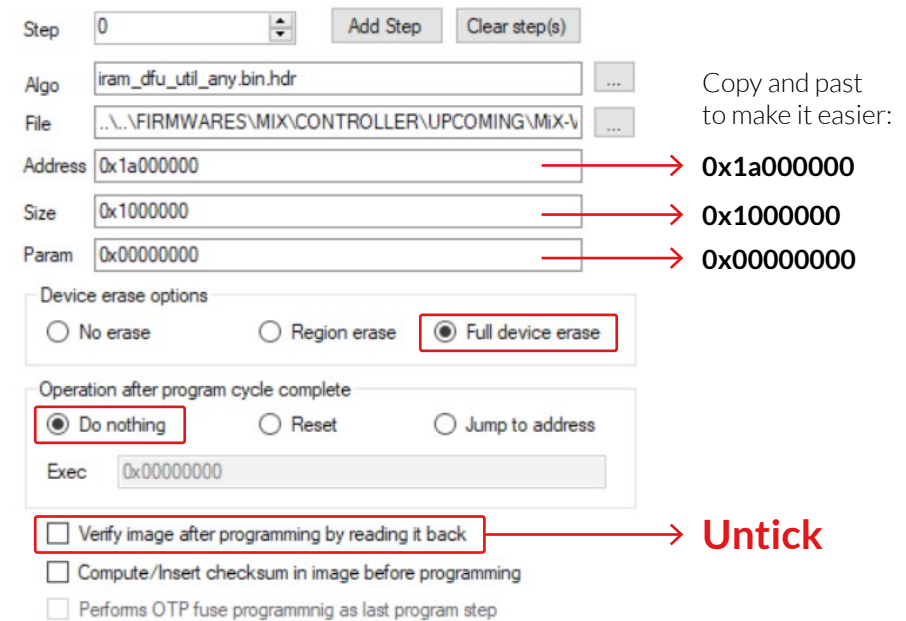

Click Add Step if Algo and File are greyed out

- Select the programming algorithm in the MIX Update Software folder, called **iram_dfu_util_any.bin.hdr**

Select Algo

- Select the latest firmware you have downloaded from the website:

select the firmware

- Fill in the configuration options exactly like the picture below:

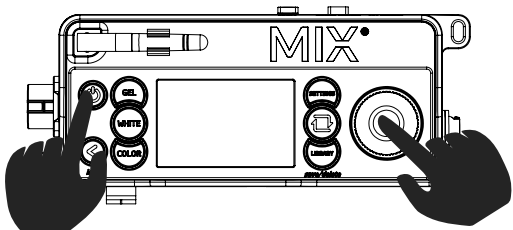

Copy and past to make it easier:

0x1a000000

0x1000000
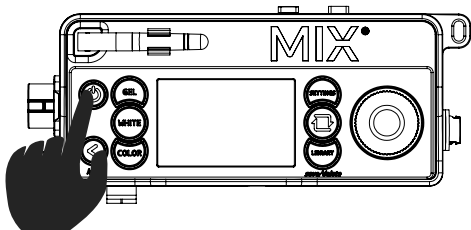

0x00000000

Untick

3. UPDATING

- Connect the MIX controller to a power supply. If the controller turns ON, turn it back OFF.
- Connect the MIX controller to this PC using a USB to Micro USB cable.
- Press the Red dimmer button and keep it pressed:

- Turn on the MIX controller while keeping the dimmer button pressed:

- Do not release the ON/OFF button!
- Release the dimmer button but keep the on/off button pressed.

- **Start** button will turn from grey to normal if the MIX is started properly in update mode.
- **● Click the Start button in DFUSec to update the MIX:**

- Make sure the update was successful. The green bar should be full.

- Disconnect from the power supply and reconnect. Turn the controller back ON.
- To verify the proper firmware is in the MIX controller, go to SETTINGS/INFORMATION and verify the firmware version.

UPDATE IS FINISHED, ENJOY!
