- **Optics:** Asymmetric

Cyclight

Spice up your light

Dais is an asymmetrical 300W LED cyclorama / wall wash luminaire designed to deliver powerful, smooth coverage and a huge variety of pastel and saturated colours. Dais cyclight offers silent operation which is perfect for sound sensitive applications like opera houses and studios, and all theatrical, TV and entertainment applications.

Features

- **8-colour mixing LED system:** Red, Green, Blue, Royal Blue, Amber, Cyan, Warm White (2200K), Cool White (6500K)
- **Very wide colour gamut:** The choice of the eight colours in association with the 16-bit control, results in an almost infinite range of repeatable colour possibilities
- **Impressive range of pastel tones:** Desaturation of the colours possible with the addition of the Warm White and Cool White LEDs - no need to dim the light output
- **True tunable white:** From 2200K to 6500K - full spectrum to light backdrop
- **16-bit control of each colour:** Precision dimming on every colour
- **Linear dimming curve:** No colour fading during dimming
- **Adjustable response time:** Choice of fast or slow dimming for tungsten-like simulation
- **Control of up to 4 groups:** colour variations with smooth transition by separating the unit into 2 or 4 sections
- **Strobe:** Independent control of speed and duration
- **Easy control mode:** Preset calibrated colours with control of intensity and CCT
- **Easy data control:** Compatible with DMX, RDM, Art-Net, sACN protocols
- **Easy setup:** locally (keypad / NFC) and remotely by RDM or TCP/IP - integrated display
- **Vertical mounting possible:** Allows easy creation of vertical colour fades (horizontal lines) – for sunrise / sunset creations
- **Adjustable feet:** Can be installed directly on the floor; simple retractable foot mechanism to aid floor focusing
- **QuickRig mounting system:** Spigots can be positioned anywhere along the unit to clamp anywhere on truss or light bars

Optical

- **Exclusive patented optical system:** 48 micro optical asymmetric reflectors spreading the light evenly across vertical surfaces
- **High efficiency:** Massive light output, small power consumption
- **Long life:** outstanding operational lifetime expectation, no need to replace lamps, low maintenance
- **High transmissive coated protective glass window:** Ensures optimal light transmission
- **Directional light:** Allows creation accurate linear sections
- **Dimming:** No clipping or cut-out below 20%; high quality smoothing

Construction

- **Made in Europe :** Control over all aspects of quality
- **PSU:** Built-in electronic flicker-free power supply for easy, plug and play installation
- **Ethernet-DMX node:** Data in through RJ45 connector; data out through DMX for daisy chaining
- **Connectors:** Neutrik® powerCON TRUE1 in and out connectors for daisy chaining; delayed power out switching against inrush current
- **Fanless system:** Convection cooling- perfect for sound sensitive applications - less maintenance required
- **Electronic thermal management system:** ensures maximum performance of the system without any risk of overheating
- **QuickRig safety cables:** Easy and secure installation of the safety cable
- **Lightweight and compact:** easy to install in a row directly on the floor or hanged on lighting bar
